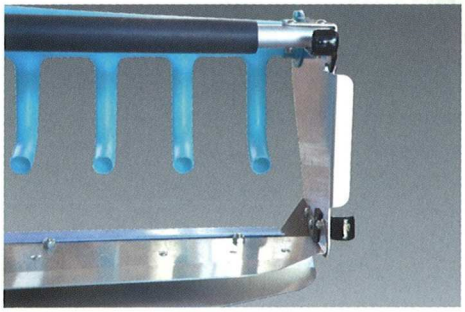
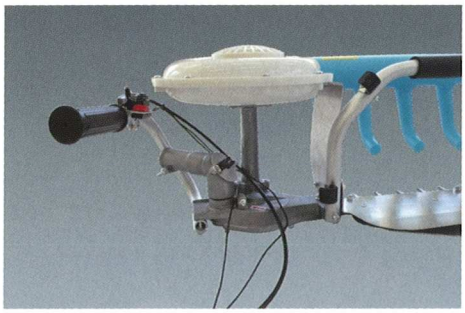
OCHIAI SHARP, LIGHT, EASY TO USE, WITH EXCELLENT DURABILITY

1. By applying of hydrodynamics, it achieved 15% wind force up compared from ex-model AM110VB
   For the improvement, it is able to correct tea leaves more smoothly.



2. Duct height and Handle height is higher than ex-model.
   Duct height=3cm up, Handle height=2cm up
   It is able to correct even large leave and wet leaves by strong wind power.
   By our tequnique, it is able to use for all kinds of tea leaves without distinction of tea type.



3. The matelial of Bag Metal and Swhitch Stay is changed Aluminum.
   It comes to be lightweight.
   It is strengthen the endurance to corrosion.

Safety Cover of maker recommendation is available as optional setting.

NEW MODEL AM-120V

OCHIAI NEW MODEL IS ARRIVAL!!!
DISPATCH ALL OVER THE WORLD
REALIZATION OF COMPLETE CUSTOMER SATISFACTIO

It is refined on conventional blade. There is full of OCHIAI know-how here.

Specifications

Operation area par 1 hour	500㎡ (Maker recommendation)
-Power System-	
AM-26EZ	Zenoah 2cycle Engine 26cc (1.4ps)
Tank Capacity	0.75ℓ
Using time as full of tank	40min (Maker recommendation)

The specification may be changed for improvementwithout a priornotice.

Quality of tea leaves depends much on sharpness of blade used for plucking leaves. Leaves cut with sharp blade is difficult to oxidize and ensure maximum flavor while tea gardens can expect less damage of pest than tea gardens with leaves cut with blunt blade. Ochiai has made various efforts to accumulate cutlery technologies.
We have used the technologies for development of tea garden management machines and gardening management machines to make agricultural job with utmost safety and easiness. We are working hard for new aims while making our products with less weight, lower gravity and less noise.
